

21 May 2015

Concurrent Technologies Plc

Trading Update

Concurrent Technologies Plc ("the Company"), a world leading specialist in the design and manufacture of high-end embedded computer products for critical applications in the defence, aerospace, telecommunications, transportation, scientific and industrial markets, announces that the strong order book at the end of 2014 has continued into this year and the Board of Directors anticipates that revenues for the first half of 2015 will be ahead of their earlier expectations and significantly ahead of revenues for the first half of 2014. The Directors believe that this situation may well prove exceptional and may not be indicative of the sales growth that can be reasonably expected in future periods.
